OBJECTIVE

Aspiring Software Developer with hands-on experience in full-stack web development, AI/ML, and Generative AI applications. Skilled in building scalable web applications, RESTful APIs, and data-driven solutions using modern technologies. Seeking an opportunity to contribute technical expertise, continuous learning in a growth-oriented organization.

EDUCATION

Vignan Institute of Technology and Science, Hyderabad
Bachelor of Technology (B.Tech) – Computer Science and Engineering (AI & ML) 2026
CGPA: 7.53

EXPERIENCE

Shnoor International LLC — Junior MERN Stack Developer 2026
Worked on full-stack web application development using MongoDB, Express.js, React.js, and Node.js. Developed responsive user interfaces, integrated REST APIs, and worked on backend functionality and database operations. Improved application performance through backend and database optimization while implementing new features and fixing issues.

Surya Shakti Solars — Software Engineer 2025
Developed and maintained the company's website, implementing responsive web pages and enhancing the user experience. Collaborated with the team to develop new features, resolve technical issues, and optimize website performance. Assisted in website maintenance, content updates.

PROJECTS

Enterprise CRM Platform
Developed a role-based CRM platform using MongoDB, Express.js, React.js, and Node.js with secure authentication and separate Admin/Employee dashboards. Implemented team management, chat, notifications, organization chart, documents, customer queries, and feedback modules with RESTful APIs.
