Hyderabad, India

OBJECTIVE

Aspiring Software Engineer with a B.Tech in Computer Science and Engineering (AI & ML), possessing strong analytical, problem-solving, and logical thinking abilities. Hands-on experience in application development, testing, debugging, and team collaboration. Seeking to contribute to software development, scalable solutions, and innovative technology initiatives.

EDUCATION

Vignan Institute of Technology and Science, Hyderabad **2026**
Bachelor of Technology (B.Tech) – Computer Science and Engineering (AI & ML) CGPA: 7.53

EXPERIENCE

Shnoor International LLC — Software Engineer **2026**
Developed and maintained full-stack web applications using the MERN stack. Built responsive frontend components, implemented backend APIs and application logic, and worked with MongoDB for data storage and management. Integrated frontend and backend services, fixed bugs, performed testing and debugging, and optimized application performance.

PROJECTS

AI-Powered HRMS Platform Developed a full-stack Human Resource Management System using MongoDB, Express.js, React.js, and Node.js with role-based authentication and REST APIs. Implemented employee management, attendance, leave management, task management, notifications, documents, feedback, and administrative modules. Integrated backend services with database operations and implemented data validation, testing, debugging, and performance optimization to deliver reliable HR workflows and application functionality. *GitHub: View Project*

AI Resume Analyzer & Job Matcher Developed a full-stack application using MongoDB, Express.js, React.js, and Node.js to process resume and job description data. Implemented data extraction, preprocessing, NLP-based analysis, REST APIs, JSON data handling, Generative AI integration, and automated recommendations. Performed testing, debugging, validation, and AI-assisted analysis to improve data accuracy, application reliability, and user results. *GitHub: View Project*

TECHNICAL SKILLS

Programming: Python, Java (Basics), JavaScript

Frontend: HTML, CSS, React.js, Bootstrap

Backend: Node.js, Express.js, Django, Flask, REST APIs

Database: SQL, MongoDB, PostgreSQL

AI/ML: Machine Learning, NLP, LLMs, Generative AI, Prompt Engineering, Vibe Coding

Other: Blockchain (Basics)

Tools: Git, GitHub, VS Code, Docker

CERTIFICATIONS

Machine Learning with Python — IBM

MERN Development — Coursera

ADDITIONAL INFORMATION

Languages: English (Professional), Telugu (Native)

Interests: Software Development, Artificial Intelligence, Generative AI, Machine Learning
